What would you do if you won \$10 million dollars? I would buy all the best triathlon gear that I don't have/can't afford like a new bike and some race wheels. I would give some to my family and also some to charity. The rest of the money I would save for my life so I don't have to get a job and I can just train and race without worrying about work. I would also buy a Grand Piano as they are really good to play.
