

# Calculation of Technical Services Fee

The technical services fee is payable for any sanctioned event in Australia where technical officials are in attendance. The only exception is an affiliated club sanctioned event where no sanctioning fee is paid and the event is covered by the certificate of currency that is issued by Triathlon Australia on behalf of its insurer for affiliated clubs.

The number of technical officials to be supplied will vary from event to event depending on a number of possible factors;

- Number of competitors
- Type of event
- Length of event
- Length of the bike course
- Status of the event

The table for the calculation of the technical services fee for any sanctioned event in Australia is automatically calculated within the Online Sanctioning Portal using the above table. The event organiser can through consultation prior to the event with the TD or Sanctioning Officer agree on the number of officials to be provided. The minimum charge is \$100 for a Technical Delegate supplied to an event. If an exact quote is required this can be requested from the National Manager Technical a minimum of 21 days prior to the event.

Any event organiser who is unclear on the calculation of this charge should contact the National Manager Technical at [technical@triathlon.org.au](mailto:technical@triathlon.org.au) for clarification.
